

## MODEL MATINEES COMMENCE TODAY

Motion Picture Houses Co-  
operate With Women's Club  
Campaign.

TWELVE THEATERS ASSIST

Seven Performances Given This  
Afternoon and Five Others  
Tomorrow.

The campaign for cleaner, better motion pictures that has been instituted by the Federation of Women's Clubs throughout the country, takes definite shape this afternoon in Washington with the institution of a series of model matinee performances in seven of the local picture theaters. Tomorrow five other theaters begin a series.

The matinees where these model programs will be shown are designed especially for children, but it is the desire of the committee in charge, headed by Mrs. John Jacob Locher, that the mothers shall attend as well. The matinees will be given on four successive Fridays and Saturdays. The first two will be free and the second two will have a nominal admission charge.

**Given Hearty Support.**  
In preparing the programs and in procuring the theaters Mrs. Locher and the members of her committee were given the heartiest support by the managers of the local branches of all the film producing companies and especially by the managers of the local theaters.

Every theater that is to be used has been furnished the committee free of charge by its manager. In the case of the theaters giving Saturday matinees, the house giving up its own profitable Saturday afternoon performance to help along the cause.

**Theaters Which Co-operate.**  
The theaters where the matinees are to be given today are:

Avenue Grand, 645 Pennsylvania avenue southeast.  
Olympic, 1481 You street.

Empire, 915 H street northeast.  
Home, 1230 C street northeast.

Lytic, Fourteenth and Irving streets.  
Victoria, 556 Seventh street southwest.

Howard (colored), 820 T street.  
Tomorrow matinees will be given at:

Circle, 2105 Pennsylvania avenue.  
Masonic Auditorium, Thirteenth street and New York avenue.

Dumbarton, Wisconsin avenue and O street.  
Truxton, North Capitol street and Florida avenue.

Blue Mouse (colored), 1209 Twenty-sixth street.

All the matinees will commence at 2 o'clock and at each performance representatives of the Federated Women's Clubs of the District, the Mothers' Congress, the home and school associations and mothers' clubs of the various schools and the school authorities, will be in attendance. A special corps of chaperones selected from among the members of the mothers' clubs and home and school associations will be present and the ushers will be made up of details from the Boy Scouts and the Girl Scouts.

**Two Complete Shows.**  
There will be two complete showings of each program in each theater for each matinee and each matinee the program will be changed.

The work of preparing the programs for the matinees has been one of the most difficult, the committee in charge state, and in this they have received the much assistance from the managers of the film changes. The primary purpose in the selection of the program has been to secure films that entertain and amuse rather than the purely educational films. There is at least one dramatic or comedy of feature length, one travel or education subject, and one short comedy in each program.

The films have been furnished the committee without cost by the film exchanges, including the International, Pathe, Paramount, Mutual, Triangle, Vitaphone, Unity and others.

**NEWS OF HYATTSVILLE**

Just Government League Would  
Join Woman's Federation.

The Prince George's county branch of the Maryland Just Government League at a meeting held yesterday afternoon at Riverdale, decided to make application for membership in the Prince George's County Federation of Women's Clubs. This federation meets in Riverdale on January 16, and the application will be considered then.

The league decided that future meetings would be held on the second and fourth Thursdays of each month. The following committees were appointed: Extension, Mrs. Charles E. Temple, Mrs. L. C. Whelpley and Mrs. H. D. Howell; program, Miss Nan Smith, Mrs. Morris Kaufmann, Mrs. Lily Lykes Rowe; finance, Mrs. Agnes Klinger and Mrs. Annie Tyler; literature, Mrs. A. Gordon, Mrs. Virginia Johnston, and Mrs. W. S. Hubbard; membership, Mrs. Gertrude Evans, Mrs. Ella Hart, and Mrs. Charles E. Steinmeyer.

The Hyattsville volunteer fire department will hold a smoker and entertainment in the truck room of the fire department building next Monday night.

The Holy Name Society of St. Jerome's Catholic Church will give a musical and literary entertainment in the Masonic Hall on the evening of February 2.

The stockholders' meeting of the Prince George's Bank will be held on the afternoon of January 9, and that of the Farmers and Mechanics' Bank of St. Pleasant will be held January 10.

Orlote Lodge, No. 47, I. O. O. F., installed the following officers last night: Noble grand, Ed Devlin; vice grand, Howard A. Harrison; recording secretary, Audley C. Hart; financial secretary, J. C. Hawkins; treasurer, Sam Levin; chaplain, G. R. Maxwell; warden, H. A. Cooper. The initiatory degree was conferred upon two candidates.

## SIX TOWNS IN DARKNESS

Rosslyn and Neighbors Use Candles  
When Gas Plant Burns.

The antiquated candle came back into its own in the homes of six small towns in the vicinity of Rosslyn, Va., last night as a result of the fire which yesterday destroyed the main building of the Rosslyn Gas Company.

The places affected by the fire were Ballston, Cherrydale, Maywood, Park Lane, Rosslyn, and Clarendon. Although some of the residents have electricity, there were many who were left in darkness by the disabling of the gas works.

At the office of the company it was said today that service probably would be resumed tonight through an arrangement with the Georgetown Gas Light Company, which will furnish gas to the nearby Virginians through a four-inch main, which crosses the river under the Aqueduct bridge.

## GARDNER ATTACKS WILSON DIPLOMACY

Says President Is Characterized  
With Moral Strabismus  
of Franklin Pierce.

DETROIT, Jan. 5.—Declaring President Wilson "is characterized with the moral strabismus of a Franklin Pierce," Congressman A. P. Gardner, of Massachusetts, last night denounced the Administration's system of diplomacy before the Detroit Real Estate Board.

The lawmaker also bitterly attacked the League to Enforce Peace, and the efforts of pacifists, Andrew Carnegie and Henry Ford in particular.

Excerpts from his address follow:

**Excerpts From Address.**  
"President Wilson, so it appears, doesn't care which side wins the war, provided the world can have peace and the warriors' passions be assuaged. I see no hope for lasting peace until the Hapsburgs and the Hohenzollerns have been defeated or see defeat staring them in the face. President Wilson would send the Kaiser to Sunday school. I would end him to St. Helena."

"But the worst of it is that we are behaving as if we were afraid of Germany. Let us comfort ourselves: Japan is at war with Germany and a mighty good thing he is making of it, too."

**Might Follow Japan.**  
"Perhaps, if we were to follow Japan's example we might be able to redeem President Wilson's promise of 'strict accountability' without entailing even so much as the pain of a toothache on the boy whose mother did not bring him up to be a soldier."

"I wish that the President would follow the example of his most recent Democratic predecessor and adopt the policy of dispatching international notes which admit of only one interpretation."

**Double Discounted.**  
"Clever as is the web of words with which Woodrow Wilson shrouds his meaning, the statesmen of Europe can double discount him in diplomatic thimble-rigging."

"Grover Cleveland may have been rough from Europe's point of view, but he certainly was ready. It is true that Cleveland was no master of the niceties of dainty manicured English, but he could electrify the world with a ringing note on Great Britain's aggressions in South America, and he could make that note understood the very first time without calling on his Secretary of State to explain it up and explain it down with three separate interpretations and then add a fourth himself."

**Admits Their Strength.**  
"Republican as I am, I admit the rugged strength of Andrew Jackson. I wish that some statesman of that sturdy type ruled this country today!"

"No such luck! Woodrow Wilson, to our sorrow, is characterized by the moral strabismus of Franklin Pierce, who preferred slavery to violence, rather than by the wholesome truculence of a Jackson of a Cleveland, who preferred a good stout punch for America to a hollow bargaining for a front seat at Europe's council board."

**League To Enforce Peace.**  
"Now comes this proposition of the League to Enforce Peace, headed by our distinguished fellow-citizen, William Howard Taft."

"Judging by several of his public utterances, I should be inclined to add that the League to Enforce Peace has the backing of President Wilson, were it not for the fact that the President's utterances are not always susceptible of clear interpretation until we are quite sure that we have Mr. Lansing's final explanation of the President's meaning."

**Doctor Says Nuxated Iron Will  
Increase Strength of Delicate  
People 200% in Ten Days**

In many instances—Persons have  
suffered untold agony for years  
due to nervous weakness, stomach,  
liver or kidney disease or some other  
ailment when their real trouble was  
lack of iron in the blood—How to  
tell.

New York, N. Y.—In a recent discourse, Dr. E. Sauer, a well known specialist, who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and, therefore, nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation people become generally weakened, nervous, and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia; others have liver trouble; some can't sleep at night; others are sleepy and tired all day; some fussy and irritable; some are thin and bloodless, but with physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vitality; were for the moment, maybe at the expense of your life later on. No matter what anyone tells you, if you are not strong and well you owe it to yourself to make the following test: See how long you

can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles, by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs, and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated iron, for example, is pleasant to take, does not injure the teeth, and is almost immediately beneficial."

**NOTE**—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the refund of the money if they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Jax, O'Donnell's Drug Store, People's Drug Store, and all other druggists.—Adv.

## CADET INSTRUCTOR PLANS NO CHANGES

Lieut. Briscoe to Adopt Same  
Program for High Schools  
as Predecessor.

Lieut. Norman Butler Briscoe, now instructor of the High School Cadet Corps, will follow in the footsteps of Capt. E. Z. Steever, who until recently occupied that position, so far as conducting the affairs of the organization is concerned.

It was announced today that Lieutenant Butler would introduce no innovations at the annual meeting which would carry out the program made by Captain Steever.

Troop leadership, signaling and other features of the present line of work are to be carried on, it was stated, after which further development will be considered.

**Is Highly Pleased.**  
Lieutenant Briscoe expressed himself as highly pleased with the cadet organization. He visited all of the schools this week with a view of ascertaining the standards that have been set. He said: "The cadet corps as it now stands is at a point of the highest efficiency. It compares favorably with regular army units, as far as the instruction has been carried on."

"The number of boys in the organization is not as great as it should be, however, and steps to enlist more boys probably will be taken. I am extremely pleased with the outlook."

This is the first corps of boys that the lieutenant has worked with, but he states that the prospects are exceptionally interesting.

**Well Known Here.**  
Lieutenant Briscoe is well known in Washington military circles. He attended the public schools near his home in the Shenandoah valley, afterward being graduated from the Randolph-Macon Academy at Front Royal. After being out of school for two years he passed the examination for West Point, where he was the classmate of several Washington men.

He was graduated from the Military Academy in 1909, and has been detailed for duty in the West almost exclusively. His present detail is pleasing to him, he stated, in that it brings him nearer his own home.

In conjunction with Assistant Superintendent of Schools Stephen E. Kramer, the line of work for the corps to follow is being planned.

**PLAN SCHOOL DISCUSSION**  
Home and School Council Will Meet  
Next Week.

The need of a matron in the schools, the teachers' retirement bill, and relieving grade principals from teaching duties will be topics of discussion at a meeting of the Home and School Council at the Franklin School Saturday, January 13.

Topics for discussion were chosen at a meeting of the executive committee of the organization at the Franklin School yesterday. The executive committee is formed of representatives of all home and school associations in the city.

It is considered likely that a recommendation to relieve grade principals of teaching duties will be adopted. The need of a matron is also urgent, and a number of members of the organization favor such appointment. Individual expressions on the teachers' retirement plan show that the members are in accord with the movement.

**RECEIVERS FOR JEWELERS**  
Petitions in Bankruptcy Against  
Harris N. Brown & Co.

Attorneys Harry I. Quinn and Abner H. Ferguson today were appointed receivers in bankruptcy of the jewelry business of Harris N. Brown & Co., 1208 P street northwest. Bond was fixed at \$40,000.

The order of appointment was signed by Justice Hitt, and followed the filing of a petition in involuntary bankruptcy by three of the creditors of the corporation. The company had filed an answer admitting the allegations of the creditors.

Attorneys R. Golden Donaldson and Abner H. Ferguson appeared for the company, and attorneys Fred S. Swindell, L. P. Lovins, and L. L. Hammer for the creditors. The assets of the company are estimated at \$20,000 and the liabilities at \$25,000.

**URGED TO MAKE D. C. "DRY."**  
Senator Sheppard of Texas has received a copy of resolutions adopted by the Woman's Foreign Missionary Society and Woman's Home Missionary Society of the Methodist Episcopal Church at their quarterly meeting here this week. The resolutions favor prohibition for the District as an example to the nation and oppose a referendum.

# Educational Bulletin--No. 2

## Pure Yeast Was Unknown in the United States Until Made by the Corby Company

It is a matter of official record, in investigations made by the Government bureaus charged with such duties, that adulterations entered into the manufacture of practically all yeasts except that produced by the Corby Compressed Yeast Company, and were by direction so labeled, up to within a very short time. Even now in many sections of the country those yeasts still bear this label denoting adulteration.

At a hearing appointed by the Board of Food and Drug Inspection of the Department of Agriculture, August 3rd, 1909, every yeast manufacturer present but ONE defended the adulteration of his product—the CORBY COMPANY ALONE CONTENDING FOR A STANDARD OF PURE YEAST, free from all foreign elements which render strength uncertain, and propagate impurities, SUCH AS IT ALWAYS HAD, WAS THEN, AND IS NOW PRODUCING—all of which is a matter of official record.

The organization of the Corby Compressed Yeast Company was directly due to the impossibility to obtain from existing sources yeast of the strength and purity essential to the baking of the best quality of bread. The standard of yeast then created has been consistently maintained—making such improvement as study and scientific research has made possible. Its demand has been established solely upon the recognition of its superior quality—and Corby Yeast is today the accepted standard by the largest and most discriminating bakers throughout the land—who appreciate not only the merit of the Corby product itself, but have found in its methods of legitimate competition relief from the arbitrary policy and price which a previous virtual monopoly made possible, and that would inevitably return, following legislation making the operation of the Corby plant impossible because of the unavoidable creation of alcohol as a by-product—which, however, has always and solely been sold for use in the arts, sciences, and manufactures.

It may not be generally known to what extent ethyl alcohol is required in pharmaceutical preparations.

The United States Pharmacopoeia, which is the official standard—the law of the land by Congressional enactment—publishes in its latest revision, issued in September, 1916, a list of no less than one hundred and thirty-seven recognized ethical preparations in which alcohol is indicated either as a principal or as a solvent.

### Alcohol As a Raw Material

Ether,	Bromoform,	Paraldehyde,	Chloral,
Ethyl carbamate,	Chloroform,	Trional,	Acetanilid,
Ethyl chloride,	Iodoform,	Sulfonal,	Aspirin,
			Antipyrine.

### Alcohol As a Solvent, Etc.

Camphor water,	Fluid Extract of—	Resin of—	Tincture of—
Collodion,	Eucalyptus,	Jalap,	Cinchona,
Aromatic elixir,	Gelsemium,	Podophyllum,	Cinnamon,
Extract of—	Gentian,	Scammony,	Colchicum,
Aconite,	Licorice,	Spirits of—	Catechu,
Belladonna,	Grindelia,	Ether,	Digitalis,
Cannabis,	Guarana,	Nitrous Ether	Ferric Chloride,
Cimifuga,	Heliolebo,	Ammonia, aromatic,	Gelsemium,
Colchicum,	Hyoacynamus,	Bitter Almond	Gentian,
Colocynth,	Nux Vomica,	Anise,	Ginger,
Ergot,	Pilocarpus,	Orange	Guaiaac,
Ox Gall,	Podophyllum,	Camphor,	Hydrastis,
Gelsemium,	Rhubarb,	Chloroform,	Hyoacynamus,
Hydrastis,	Sabal,	Cinnamon,	Iodine,
Hyoacynamine,	Sarsaparilla,	Nitro Glycerin,	Kino,
Nux Vomica,	Squill,	Juniper,	Lactucarium,
Physostigmine,	Senega,	Lavender,	Lavender,
Rhubarb,	Senna,	Peppermint,	Lemon,
Stramonium,	Staphisagria,	Spearment,	Lobelia,
Sumbul,	Stillingia,	Tincture of—	Musk,
Taraxicum,	Submul,	Aconite,	Myrrh,
Viburnum,	Viburnum,	Aloes,	Nux Vomica,
Gulated ferrous	Xanthoxylum,	Arnica,	Opium,
sulfate,	Compound solution of Cresol,	Asafoetida,	Physostigmine,
Belladonna,	Compound mixture of Licorice,	Bitter Orange,	Pyrethrum,
Buchu,	Glycerite of Hydrastis,	Sweet Orange,	Quassia,
Cannabis,	Oleate of Mercury,	Belladonna,	Rhubarb,
Cascara, aromatic,	Oleoresin of Cubebs,	Benzoin,	Squill,
Cimifuga,	Soap liniments,	Bloodroot,	Stramonium,
Colchicum,	Soft soap,	Calumba,	Strophanthus,
Digitalis,		Cannabis,	Tolu,
Eriodictyon,		Cantharides,	Valerian,
		Capsicum,	Veratrum,
		Cardamon,	

\*Ether, derivative of alcohol, is also used in the preparation of a number of oleoresins.

**Syrups:** The syrups constitute simply another form for the administration of a number of drugs, for the most part those occurring also in other preparations; alcohol is a constituent of a number of them, appearing as a solvent or stabilizer.

A recent volume, "Pharmacology of Useful Drugs," compiled by Dr. Robert A. Hatcher and Dr. Martin I. Wilbert, and published by the American Medical Association, the highest medical authority in this country, states on page 102, in the section on alcohol, the following:

"In pharmacy it (alcohol) is widely used as a solvent and preservative, and many of the extractive preparations, including tinctures and fluid extracts, contain from 30 to 80 per cent of alcohol."

Thus it will be seen that alcohol plays a tremendously important part in medicine and surgery, rendering it a positive necessity in the successful preparation of the most potent agencies employed in the prevention and cure of diseases which endanger health and jeopardize life.

The Corby Plant is strictly a yeast manufactory; and every gallon of the alcohol which its legally prescribed process produces has by strict understanding been sold and used ONLY in these important industries.

# The Corby Compressed Yeast Company

Langdon Station, D. C.

BULLETIN NO. 1—"The Manufacture of Yeast, and Its Necessary By-product," appeared in The Evening Times of January 4th.
